

## VERSION NOTE V 6.2.7.0

### CUTTING ELEMENTS - CONFIGURATOR

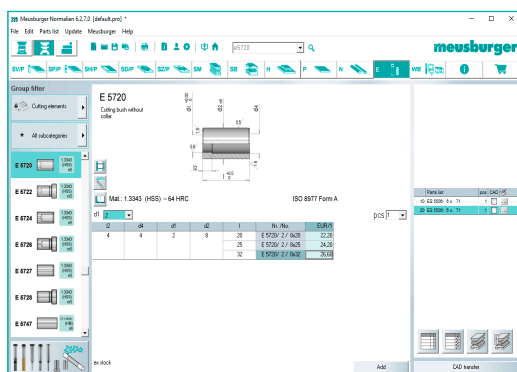

#### HOW YOU BENEFIT:

- » Simple and intuitive handling directly in our Shop.
- » CAD data of your individual cutting elements available immediately after configuration.
- » Configure one or more suitable combinations of individual cutting punches and cutting bushes.

- » Display of delivery availability in the cutting elements configurator. The delivery availability of customised cutting punches is displayed in the configurator.

- » Cutting bushes now link directly to the appropriate special component in the cutting bush configurator. If you click on the configurator button on the product detail page (e.g. E 5720), this leads directly to the matching special component (e.g. ES 5720).
